Fresubin®
3.2 kcal DRINK

Nutrient dense with a creamy mouthfeel

3.2 kcal/mL high protein oral nutritional supplement for the dietary management of patients with or at risk of malnutrition, in particular with increased energy and protein needs such as cancer patients and frail people

Provides the minimum effective dose of calories in one bottle

Unique protein blend providing 20 g protein per 125 mL

Provides 20% energy from protein to support high protein needs in low volume

High vitamin D content: 10 µg per 125 mL

Daily intake of 20 µg Vit. D reduces the risk of fractures from falls

With all micro- and macronutrients for complete nutrition

For Health Care Professionals only.
Fresubin
3.2 kcal DRINK

Available in two delicious flavours in 125 mL EasyBottle

Prescribing information

Food for special medical purposes: Nutritional complete, high-caloric (3.2 kcal/mL), high-protein (20% energy) oral nutritional supplement, low in fibre. High in Vitamin D. Low in lactose and gluten. For the dietary management of patients with or at risk of malnutrition in particular for patients with increased energy and protein needs or fluid restrictions.

Dosage:
To be determined by a health care professional according to patients’ needs. Recommendation for supplementary nutrition 1-2 bottles (400-800 kcal)/day, or complete nutrition 4-5 bottles (1600-2000 kcal)/day.

Important notes:

Instructions for use:
Store at room temperature. Opened bottles may be stored in a refrigerator for up to 24 hours. Best served chilled. Drink slowly! Packaged in a protective atmosphere.

Contraindications:
Not suitable whenever enteral nutrition is not permitted such as in acute gastrointestinal bleeding, ileus and shock. Use with caution in severe organ failure with impaired metabolism and severe forms of malassimilation. Not suitable for patients with congenital inability to metabolise nutrients contained in Fresubin 3.2 kcal DRINK.
