Clinically free from purine and cholesterol. Low in sodium.
* SFA = saturated fatty acids; ** MUFA = monounsaturated fatty acids; 
† PUFA = polyunsaturated fatty acids;
*RE: retinol equivalents; **α-TE: alpha-tocopherol equivalents;
***NE: niacin equivalents

Prescribing information

Food for special medical purposes:
Nutritionally complete, high-caloric (1.5 kcal / mL) oral nutritional supplement, fibre free. With taurine, carnitine and inositol. Low in lactose and gluten. For the dietary management of children (1 – 12 years) with or at risk of malnutrition, in particular with increased energy needs.

Dosage:
Must be determined by the health care professional according to patients’ needs. Recommendation for supplementary nutrition: 1 – 3 bottles / day or complete nutrition: age / dosage (bottles / day): 1 – 3 years / 3 - 5, 4 – 6 years / 5 – 6, 7 - 10 years / 6 - 7, 11 – 12 years / 7 – 8.

Important notes:
To be used under medical supervision. Suitable as sole source of nutrition. Not suitable for infants < 1 year or adults. Not suitable for patients with galactosaemia. Ensure adequate fluid intake. Packaged in a protective atmosphere. Not for parenteral (I.V.) use!

Instruction for use:
Store at room temperature. Opened bottles may be stored in a refrigerator for up to 24 hours. Shake well before use. Drink slowly! Best served chilled.

Contraindications:
Not suitable whenever enteral nutrition is not permitted such as in acute gastroenteritis bleeding, ileus and shock. Use with caution in severe organ failure with impaired metabolism and severe forms of malassimilation. Not suitable for patients with galactosaemia. Not suitable for patients with congenital inability to metabolise nutrients contained in Frebini Energy DRINK.
