Freka® Connect, ENFit
Dedicated Syringes
for all Enteral Nutrition Applications

Freka® Connect, ENFit

Dedicated Syringes for all Enteral Nutrition Applications

ENFit Centric Tip Syringes

The standard choice for enteral nutrition

- good visible scale
- high quality application haptic
- sterile, single packed
- various sizes: 10, 20, 60 and 100ml

ENFit Eccentric Tip Syringes

Preferred solution for breast milk delivery:

- the eccentric tip improves the fat delivery by pump application compared to centric tips
- available in 20 and 60ml size

ENFit Low Dose Tip Syringes

Precise application of small volumes

- good visible scale
- reduced dead space
- available in 1, 2.5 and 5ml size

ENFit®

ENFit for safety - All syringes are equipped with the safe enteral connector ENFit, according to the international safety standard ISO 80369-3. The ENFit system reduces the risk of an unintended misconnection. Therefore these syringes offer the highest safety in the clinical routine for patients and caregivers.

ENFit = one enteral connector for all applications in enteral nutrition

Useful Syringe Accessories

Lower Contamination Risks by Using the right Accessories

Adapter

- Easy and tight connection of two ENFit syringes to mix or transfer liquids

Multifunction Syringe Cap

- With air filter to protect liquids and nutrition during gravity feeding
- Flexible in use, as it fits to 20 ml and 60 ml syringes

Syringe Holder

- Syringe Holder for gravity feeding
- Parallel fixation of two ENFit syringes
- Flexible elastic strap for easy fixation

Sampling Straw

- Clean and hygienic draw of liquids
- Protective cover to prevent kinking before usage
- Available in 5, 10 and 15 cm length

Sampling Cannula

- Hygienic and precise draw of even small portions of liquids from glass ampoules or vials
- Integrated particle filter for additional safety
- Protective cover

Milk Bottle Adapter

- Ventilated adapter to draw milk or liquids out of a milk bottle
- Direct connection of an ENFit syringe

Medication Adapter

- Vented, universal spike to draw medicine out of a sterile vial

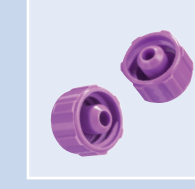

VarioBottle Adapter

- Adapter to draw liquids from a bottle or vial
- Flexible in use, as it fits to various bottle neck sizes

Bottle Insert, non-removable

- For small bottles, e.g. medicine bottles
- To draw medicine out of a small bottle or vial
- Available in 5 different diameters

Syringe Caps for ENFit syringes

- For a hygienic intermediate storage
