Vitamin C	mg	300
<b>Caloric distribution (energy%):</b>		
Fat 2, carbohydrate 30, fibre 0, protein 68		
°alpha-tocopherol equivalents (α-TE)		

## General Information

### Food for special medical purposes:

Nutritionally incomplete 0.5 kcal/ml disease-specific tube feed, fibre free; high in glutamine as dipeptides, high in antioxidants and butyrate as tributyrin. Free from lactose and gluten. For the dietary management of patients with or at risk of disease-related malnutrition in particular when critically ill with limited enteral tolerance and in need of glutamine and antioxidants.

### Dosage:

To be determined by a health care professional according to patients' needs. Recommendation for supplementary nutrition 500 ml/day (250 kcal).

### Important notes:

To be used under medical supervision. Monitor feeding rate. Continuous application recommended. Not suitable as sole source of nutrition. Not suitable for children < 10 years. Ensure adequate fluid intake.

### Not for parenteral (I.V.) use.

### Instructions for use:

Store at room temperature. Once opened, use within 24 hours. Shake well before use! Do not use if bag is damaged or swollen or content is coagulated. Do not mix with drugs.

## Ingredients

Water, glycyl-glutamine, maltodextrin, alanyl-glutamine, vit. C, tributyrin, vit. E, emulsifiers (E 304, E 473), acidity regulator (E 501), sodium carbonate, zinc sulphate, β-carotene, sodium selenate
